

The Department meets Migration Experts

The Department of Statistical Sciences is pleased to invite you to a seminar featuring two researchers from the **Unité de Recherche Migrations Internationales et Minorités de l'Institut National d'Etudes Démographiques (INED)**

Overview

The experts will provide an overview of the *Trajectoires et Origines 2* (TeO2) survey, a major study on migration and integration in France conducted in 2019-2020. The TeO2 survey is a continuation of the original TeO survey (2008-2009), aiming to analyze the life trajectories, social integration, and identity formation of individuals with immigrant backgrounds in France. The survey presents both opportunities and challenges for researchers and policymakers alike.

Summary

Date	Apr 15, 2025 – H 17-18
Title	The Trajectoires et Origines 2 (TeO2) survey: Opportunities and challenges
Venue	Aula 22, second floor Department of Economics , University of Bologna – Piazza Scaravilli 2, Bologna
